

# Career Safety Education

As an educator, we understand that you need to achieve curriculum outcomes. Career Safety Education provides students with life and workplace skills, as well as several connections within the Saskatchewan curriculum.

Career Safety Education provides students with downloadable industry-recognized certificates that can be uploaded to their portfolio on myBlueprint, supporting their graduation and post-graduation plan.

## **Practical and Applied Arts**

## **Career Education 9**

### **Outcome: CG9.2**

Appraise one's own abilities to respond positively to change and growth.

## **Health Education 9**

### **Outcome: USC9.1**

Develop informed conclusions about the importance of leadership skills and health promotion in healthy decision making.

### **Outcome: USC9.2**

Analyze how the well-being of self, family, community, and the environment is enhanced by a comprehensive, community approach to safety.

### **Outcome: DM9.10**

Assess the role of health promotion in making healthy decisions related to comprehensive approaches to safety, non-curable infection/diseases, romantic relationships, healthy food policies, addictions, tragic death and suicide, chronic illness, and sexual health.

## **Wellness 10**

### **Outcome: W6**

Model and promote a local culture/norm of safety and injury prevention (i.e., physical safety, social safety, psychological safety, spiritual safety, environmental safety) to optimize well-being of self, family, community, and the environment.
