 - Lockout
 - Confined Space
 - Fall Pro Inspector
 - Work Zone Traffic Accommodation Supervisor

FREE ONLINE TRAINING

Safety Training Doesn't Have To Cost You Money!

Fall Protection Training

Provides participants with current information on industry best practices and legislative minimums. By the end of this program participants will know how to exercise the hierarchy of controls including fall prevention, fall restraint, and fall arrest in varying situations.

Ground Disturbance for Saskatchewan Workers

Aims to raise the awareness of both new workers and youth to the existence of underground or soil-related hazards, therefore reducing the number of incidents due to underground utility strikes or soil collapse.

Hearing Protection Training

Reveals that noises are, in fact, controllable with the proper training and safety measures in place. By understanding how to control them, participants can learn to significantly decrease the risk of injury to everyone in the workplace.

Respiratory Protection Training

Helps workers understand: The anatomy of the respiratory system and how the system works; Respiratory hazards that exist in the workplace and the effects they can have on our health; How to protect against respiratory hazards; Roles and responsibilities.

WHMIS 2015

Provides participants with introductory education on identifying, handling, and storing of a regulated material and reduces the chance of an incident causing harm. Participants of this program will require additional workplace specific training for how WHMIS is handled in their workplace.

Mental Health Wellness Resiliency

The Council's online mental health program empowers participants to improve their own mental well-being. Through learning how to leverage the power of the body's response to stress and by practicing specific lifestyle habits, learners can elevate their health and performance, while effectively managing high levels of stress.

COMING SOON...

Gravel Road Safety

Recent data reviews have singled out gravel roads as a common factor in collisions across Saskatchewan.

This new initiative will create a great resource for those who travel throughout Saskatchewan to First Nations and other rural communities for work or for pleasure.

Safe Trailing

This program covers topics such as: selecting the right trailer, load distribution, learning various types of hitch receivers & light adaptors, weight requirements, and general best towing practices.

It will be resourceful for those who plan to pull a recreational or utility trailer, & workplaces that have employees pulling small utility trailers.

Our Free programs are made possible thanks to our members & sponsors.
